

Pas Reform Heat exchanger set

To optimise performance in setters with
integrated heating/cooling functionality

Royal Pas Reform
Integrated Hatchery Solutions

Heat Exchanger

Benefits

For warm water delivered at the correct temperature and pressure, to optimize performance in setters with integrated heating/cooling functionality. Supplied fully assembled, with integrated circulation pump, heat exchanger, water filter, differential pressure regulator, automatic air-relief, two expansion tanks, overpressure safety valve, thermometers and manometers.

How it works

- The heat exchanger separates and maintains the primary central heating circuit from the secondary heating/cooling circuit of your setters
- To eliminate water shocks and ensure that sufficient pressure is maintained.
