

Pas Reform Farm trolley

For the safe transportation and storage
of trayed hatching eggs

Royal Pas Reform
Integrated Hatchery Solutions

Farm trolley

Benefits

Designed for intensive use and frequent handling, the farm trolley is suitable for the automatic loading and unloading of setter trays. A front tray lock system fixes the trays securely during transportation to reduce the incidence of hairline cracks. Being lower than a standard setter trolley makes loading the trolley with setter trays easy. Constructed of highly durable, easy to clean galvanised steel, with large diameter rubber swivel castors for easy manoeuvrability.

Safe transportation and storage of trayed hen eggs
